Subject: **John Kenrick's Representation on the Temagami Forest Tenure Advisory Team**

Greetings Lorie:

The wealth of knowledge and experience that John Kenrick brings to the Forest Tenure Modernization Advisory Team is tremendous, particularly, navigating through Senior levels of OMNRF. As you know, he served his career working with OMNRF on resources issues and negotiating very complex lands and resources issues. He is more than familiar with the complexities and dynamics of Temagami. This experience brings so much capacity to our Advisory Team and the outcomes that we are trying to achieve with respect to community based local decision making for the Temagami region on forestry.

Temagami First Nation has been receiving Transfer Payment Agreements from OMNRF for this project. The funding that we receive is to cover our Consultants and incurred expenses of the all Forest Advisory Team members, including members from Municipalities.

I really trust that the Municipality of Temagami Mayor and Council will have no hesitation in John continuing to sit on the Forest Tenure Advisory Team as the Municipal representative. Should you have any questions, please do not hesitate to contact me.

Robin Koistinen
