Subject: ACCESS ROAD

APRIL 12 & 13 - 2016

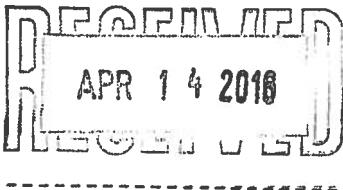

The Access Road is dangerous in it's current condition...I telephoned today and someone from the Work's Dept. returned our call and I thank you. However, I would like this complaint read at the Town Council meeting and documented. Something has got to be done...we cannot possibly continue to be expected to ruin our vehicles because the Township doesn't appear to think there's a problem. I think part of the problem is the mind set of those who have resided here... "it's an old logging/mining road, it's bed rock, if you didn't grown up in Northern Ontario you don't know anything about road maintenance". Highway 11 used to be a cow path too so those "old excuses" are not longer relevant. While we realize the Municipality is strapped for funds.. it's no excuse for a road in that condition...

I know this past summer of two "accidents/collisions" which could have been prevented if the road had been in good condition....Several of our friends and relatives have had major damage to their vehicles over the years.. amounting to thousands of dollars. Again this is not acceptable..

Thanks for your time and attention and hopefully this will be well documented..
